PROFESSIONAL SUMMARY

Software Engineer with 4+ years of professional experience developing enterprise-grade SaaS applications across ERP, retail, logistics, finance, and sales domains. Experienced in building scalable web and mobile solutions using Angular, ASP.NET Core, Flutter, C#, and SQL Server. Strong hands-on background across the complete Software Development Life Cycle (SDLC), including requirement analysis, architecture, development, testing, deployment, and production support for applications used in real business environments.

CORE STRENGTHS

- | | | |
|-------------------------------|--------------------------|---------------------------|
| ✓ Enterprise SaaS Development | ✓ ERP & Business Systems | ✓ Angular + ASP.NET Core |
| ✓ Flutter Mobile Apps | ✓ REST API Development | ✓ SQL Server Optimization |
| ✓ Docker & Deployment | ✓ Agile Collaboration | ✓ Production Support |

PROFESSIONAL EXPERIENCE

Software Engineer | I-Splendid (Remote) Apr 2025 - Present

- Developing and enhancing an integrated enterprise SaaS ecosystem supporting ERP, finance, retail, logistics, sales, and business operations.
- Design and build Angular web applications integrated with ASP.NET Core REST APIs and SQL Server databases.
- Build and maintain Flutter mobile applications for business operations, offline synchronization, GPS/location features, and ERP connectivity.
- Implement business workflows, reporting modules, PDF generation, data integrations, QA validation, deployment, and production support.
- Collaborate with stakeholders and cross-functional teams to deliver production-ready enterprise software.

Software Engineer | Hub360 Dec 2024 - Feb 2025

- Contributed to feature development, bug fixing, API integration, and system improvements in an Agile software development environment.
- Worked on web application enhancements, troubleshooting, and delivery of business requirements.

Software Engineer | I-Splendid Jan 2023 - Dec 2024

- Worked on enterprise ERP, retail, and mobile application modules using Angular, ASP.NET Core, Flutter, C#, and SQL Server.
- Developed REST APIs, optimized database queries, implemented client requirements, and supported production releases.
- Collaborated with QA and business teams to validate workflows and improve application stability.

Software Engineer | Objectual Systems Ltd Jul 2022 - Dec 2022

- Developed and maintained web application modules, fixed production issues, and delivered client-requested features.
- Worked with senior developers on backend logic, database operations, and application improvements.

Software Engineer | Office Automation Service Oct 2021 - Jun 2022

- Started professional software engineering career working on business applications, backend development, database operations, and software maintenance.
- Assisted in implementing software features, resolving bugs, and supporting existing systems.

PRODUCTION ENTERPRISE SAAS PRODUCTS

Splendid Accounts ERP - Core Enterprise SaaS Platform

Central ERP platform supporting finance, accounting, inventory, purchasing, sales, reporting, and business process management.

Key work: ERP module development; API development; SQL optimization; business workflow implementation; performance improvements; production support.

SA-POS - Production SaaS Product

Enterprise Point of Sale solution fully integrated with Splendid Accounts ERP for retail operations.

Key work: Retail workflows; inventory synchronization; invoicing; thermal printing; offline capability; API integrations; production maintenance.

Order Booker - Production SaaS Product

Flutter-based mobile sales automation platform integrated with Splendid Accounts ERP.

Key work: Order booking; customer management; offline synchronization; GPS/location features; ERP integration; API development; deployment support.

Splendid Connect - Production Branding Platform

Business communication and integration platform connected with Splendid Accounts ERP.

Key work: Backend integration; application connectivity; business workflow implementation; production support.

Logistics Hub - Enterprise SaaS Platform

Modern logistics management platform for inquiries, quotations, comparison workflows, projects, shipments, PDF generation, and reporting.

Key work: Requirement analysis; database design; backend development; Angular frontend development; API development; deployment; QA; production support; client collaboration.

TECHNICAL SKILLS

Frontend	Angular, Flutter, HTML5, CSS3, Bootstrap, JavaScript, TypeScript
Backend	ASP.NET Core, .NET, C#, REST APIs, Entity Framework Core
Databases	SQL Server, Oracle, PostgreSQL, SQLite
DevOps & Tools	Docker, Git, GitHub, GitHub Actions, Nginx, Ubuntu, Visual Studio, VS Code, Postman
Architecture & Concepts	Enterprise SaaS, ERP Systems, Clean Architecture, Dependency Injection, Repository Pattern, SOLID Principles, JWT Authentication, CI/CD, Agile, Production Support

EDUCATION

Bachelor of Science in Software Engineering | Ilma University | 2017 - 2021

LANGUAGES

English - Professional Working Proficiency | Urdu - Native | German - Currently Learning (A1/A2)

ADDITIONAL INFORMATION

- Based in Nürnberg, Germany and available for software engineering opportunities.
- Experienced working with distributed and remote teams.
- Strong interest in enterprise software, ERP systems, SaaS platforms, and scalable business applications.
